

Newly published LOINC codes

New LOINC codes are added in pCLOCD solely on stakeholder requests. Infoway only adds LOINC content identified by jurisdictions as being used or as required, in this way we support pCLOCD being representative of usage and requirements in Canada.

For your convenience, a list of all newly published LOINC codes in the latest release is available for download. If your jurisdiction requires existing LOINC codes added to pCLOCD, please submit your request via [InfoRMS](#).

This document contains all of the newly published LOINC codes, it is published and maintained in Excel format.
