RFC Process for Canadian French descriptions

1. Implementers create Request for Change (RFCs) with French descriptions according to the French Editorial Guidelines to Infoway
2. French descriptions and references are submitted via InfoRMS
3. Infoway confirms that French descriptions do not already exist
4. Infoway creates or edits appropriate concepts and descriptions
5. Infoway publishes the new content and other release materials as part of the next release of the Canadian French Edition

InfoRMS

Infoway confirms that French descriptions do not already exist

Implementers create RFC's with French descriptions according to the French Editorial Guidelines to Infoway

French descriptions and references are submitted via InfoRMS

Infoway publishes the new content and other release materials as part of the next release of the Canadian French Extension

Infoway creates or edits appropriate concepts and descriptions
