RA Releases

The following table contains a list of the RA Releases. To read the details of a specific release, including release notes, click on the Release Title name to be re-directed to the specific page containing the release details.

Release Title	Release Date	Release Type	Open Review Period	Published Content	Download Specification (PDF)
RA v0.1.1 DFT	17 Oct 2022	Draft	N/A	Reference Architecture v0.1.1 DFT	Reference Architecture v0.1.1 DFT RA v0.1.1 DFT Known Issues and Future Development-01032023 Reference Architecture (RA) v0.1.1 DFT_FR
RA v0.1.0 DFT	09 Sept 2022	Draft	Sep 9 - Sep 21, 2022	Reference Architecture v0.1.0 DFT	Reference Architecture v0.1.0 DFT

General Release Information

The Reference Architecture (RA) is published to a public space within InfoScribe and is also available as a downloadable document. A link to the online published content and the downloadable documentation will be published with each release.

Release information for each release is contained in the corresponding RA Release page. Please refer to the RA Releases table above for links to specific release content.

Publication Process

For details about the publication process, including Publication Types, Versioning, etc., refer to the [IO Specifications Publication Model](#).

How to Provide Feedback

Each release will include details about how to provide feedback. In the RA Releases table above, click on the Release Title for which you wish to provide feedback on.

Terms of Use

Use of the Interoperability Program content is bound by the [Terms of Use](#) as defined on [InfoCentral](#).
