## RA Releases

The following table contains a list of the RA Releases. To read the details of a specific release, including release notes, click on the Release Title name to be re-directed to the specific page containing the release details.

Release Title	Release Date	Release Type	Open Review Period	Published Content	Download Specification (PDF)
<a href="#">RA v0.1.1 DFT</a>	17 Oct 2022	Draft	N/A	<a href="#">Reference Architecture v0.1.1 DFT</a>	<a href="#">Reference Architecture v0.1.1 DFT</a> <a href="#">RA v0.1.1 DFT Known Issues and Future Development-01032023</a> <a href="#">Reference Architecture (RA) v0.1.1 DFT_FR</a>
<a href="#">RA v0.1.0 DFT</a>	09 Sept 2022	Draft	Sep 9 - Sep 21, 2022	<a href="#">Reference Architecture v0.1.0 DFT</a>	<a href="#">Reference Architecture v0.1.0 DFT</a>

## General Release Information

The Reference Architecture (RA) is published to a public space within InfoScribe and is also available as a downloadable document. A link to the online published content and the downloadable documentation will be published with each release.

Release information for each release is contained in the corresponding RA Release page. Please refer to the RA Releases table above for links to specific release content.

## Publication Process

For details about the publication process, including Publication Types, Versioning, etc., refer to the [IO Specifications Publication Model](#).

## How to Provide Feedback

Each release will include details about how to provide feedback. In the RA Releases table above, click on the Release Title for which you wish to provide feedback on.

## Terms of Use

Use of the Interoperability Program content is bound by the [Terms of Use](#) as defined on [InfoCentral](#).
