How to Provide Feedback:

The ballot release of the **pan-Canadian Core FHIR Profile Set v0.2.0 DFT-Ballot** is now available!

The timeline for ballot submissions is April 26 - May 27, 2024. *Extended to May 31

You may review the CA Core+ Specifications in the following formats:

- Review the CA Core+ Specifications in Simplifier.net, from the corresponding link in the table above or on the Release page.

How to submit your ballot submission:

- All Collaborators are invited to document their ballot comments using the **CA Core+ v0.2.0 DFT-Ballot Submission** spreadsheet, available here.
- Send an email to standards@infoway-inforoute.ca, with Subject Line "**CA Core+**", including the CA Core+ v0.2.0 DFT-Ballot Submission spreadsheet as an attachment.
- We kindly ask that each organization submit all comments within one spreadsheet submission.
- Upon submission, you will receive an acknowledgment email with a reference number. Feedback will be triaged by the Infoway Lead to support the FHIR Implementations Working Group with decisioning/voting blocks.

For questions, please contact us at standards@infoway-inforoute.ca

To learn more about the balloting cycle process, please visit the IO Specifications Publication Model page.
