

Canadian Clinical Drug Data Set

Introduction

The Canadian Clinical Drug Data Set provides a consistent approach to the identification and naming of medications and a limited number of medical devices. It is freely available for use in digital health solutions and design applications.

Licensing and Terms of Use

[The Canadian Clinical Drug Data Set is licensed by Health Canada](#)

Disclaimer: No Warranty

The Information is licensed “as is”, and the Information Provider excludes all representations, warranties, obligations, and liabilities, whether express or implied, to the maximum extent permitted by law.

The Information Provider is not liable for any errors or omissions in the Information, and will not under any circumstances be liable for any direct, indirect, special, incidental, consequential, or other loss, injury or damage caused by its use or otherwise arising in connection with this licence or the Information, even if specifically advised of the possibility of such loss, injury or damage.

Health Canada is the federal regulator of therapeutic products and does not provide medical advice on the use of the products identified in this database. For information related to treatment options, choices of medications and their uses, illnesses, side effects or drug interactions, please contact your health care professional. For information on where these products are sold, please contact the individual company directly.

Questions, Concerns, Changes

Questions and concerns and suggestions for future consideration are welcomed and should be sent by e-mail at clinicaldrug@infoway-inforoute.ca

Please note that to access InfoCentral, you must have an Infoway login. If you have any questions about any of our standards or products, please contact the Infodesk Desk at:
