

20200908

Release Notes: Version 20200908

About this release

This release (version 20200908) provides the latest updates to the Canadian Clinical Drug Data Set in English and French. A separate InfoScribe location for the French supporting documents, including the French Release Notes, can be found [here](#).

There is no change to the Technical Specification or the Editorial Guidelines.

The Canadian Clinical Drug Data Set is available for browsing and download via the [Infoway Terminology Gateway](#).

Supporting general information can be found on Infoway [Canadian Clinical Drug Data Set InfoCentral](#) page.

General Notes

The following files are available as full release files within this version:

- Manufactured Product,
- Non-proprietary Therapeutic Product,
- Therapeutic Moiety,
- Manufactured Product-Non-proprietary Therapeutic Product-Therapeutic Product Relationship, in English (MP-NTP-TM Relationship),
- Manufactured Product-Non-proprietary Therapeutic Product-Therapeutic Product Relationship, in French (Relation PM-PTC-FT),
- Special Groupings,
- Coded Attribute, and
- Device Non-proprietary Therapeutic Product.

The "Full" release contains one entry for every concept that has ever been released and new content added for that release. New content added for a specific release may at times include "Inactive" content.

NOTE: The "Delta" release which is intended to contain only those concepts that have been added or changed since the previous release will be considered for a future enhancement at a later date.

This release reflects additions and changes that have occurred in DPD since the last CCDD release.

Questions, Concerns, Changes

Questions and concerns and suggestions for future consideration are welcomed and should be sent by e-mail at clinicaldrug@infoway-inforoute.ca
