

20200515

Release Notes: Version 20200611

About this release

This release (version 20200611) provides the latest updates to the Canadian Clinical Drug Data Set in English and French and represents the Health Canada Drug Product Database changes from April and May 2020. A separate InfoScribe location for the French supporting documents, including the French Release Notes, can be found [here](#).

There is no change to the Technical Specification or the Editorial Guidelines.

The Canadian Clinical Drug Data Set is available for browsing and download via the [Infoway Terminology Gateway](#).

Supporting general information can be found on Infoway [Canadian Clinical Drug Data Set InfoCentral](#) page.

General Notes

The following files are available as full release files within this version:

- Manufactured Product,
- Non-proprietary Therapeutic Product,
- Therapeutic Moiety,
- Manufactured Product-Non-proprietary Therapeutic Product-Relationship, in English (MP-NTP-TM Relationship),
- Manufactured Product-Non-proprietary Therapeutic Product-Relationship, in French (Relation PM-PTC-FT),
- Special Groupings,
- Coded Attribute, and
- Device Non-proprietary Therapeutic Product.

The "Full" release contains one entry for every concept that has ever been released and new content added for that release. New content added for a specific release may at times include "Inactive" content.

NOTE: The "Delta" release which is intended to contain only those concepts that have been added or changed since the previous release will be considered for a future enhancement at a later date.

This release reflects additions and changes that have occurred in DPD since the last CCDD release.

Device NTP

There are four new Device NTP concepts with this release.

device_ntp_code	device_ntp_formal_name	device_ntp_fr_description	device_ntp_status
600004	valved holding chamber with infant mask	chambre de retenue valvée avec masque pour nourrisson	Active
600005	valved holding chamber with child mask	chambre de retenue valvée avec masque pour enfant	Active
600006	valved holding chamber with adult mask	chambre de retenue valvée avec masque pour adulte	Active
600007	valved holding chamber with mouthpiece	chambre de retenue valvée avec embout buccal	Active

NTP

There are 3 new deprecated NTP concepts with this release. In the first concept, the ingredient name for the corresponding product changed in DPD. In the second concept, the dosage form for the corresponding product changed in DPD. In the third concept, the strength for the corresponding product was changed to presentation strength as per the Editorial Guidelines since the 50 mL presentation is a pharmacy bulk vial.
