

# 20200415

## Release Notes: Version 20200409

### About this release

This release (**version 20200409**) provides the latest updates to the Canadian Clinical Drug Data Set in English and French. A separate InfoScribe location for the French supporting documents, including the French Release Notes, can be found [here](#).

There is no change to the Technical Specification in this release but a small technical correction was made to the Substance Strength Set section of the Editorial Guidelines.

The Canadian Clinical Drug Data Set is available for browsing and download via the [Infoway Terminology Gateway](#).

Supporting general information can be found on Infoway [Canadian Clinical Drug Data Set InfoCentral](#) page.

## General Notes

The following files are available as full release files within this version:

- Manufactured Product,
- Non-proprietary Therapeutic Product,
- Therapeutic Moiety,
- Manufactured Product-Non-proprietary Therapeutic Product-Therapeutic Product Relationship, in English (MP-NTP-TM Relationship),
- Manufactured Product-Non-proprietary Therapeutic Product-Therapeutic Product Relationship, in French (Relation PM-PTC-FT),
- Special Groupings,
- Coded Attribute, and
- Device Non-proprietary Therapeutic Product.

The "Full" release contains one entry for every concept that has ever been released and new content added for that release. New content added for a specific release may at times include "Inactive" content.

NOTE: The "Delta" release which is intended to contain only those concepts that have been added or changed since the previous release will be considered for a future enhancement at a later date.

This release reflects additions and changes that have occurred in DPD since the last CCDD release.

## Questions, Concerns, Changes

Questions and concerns and suggestions for future consideration are welcomed and should be sent by e-mail at [clinicaldrug@infoway-inforoute.ca](mailto:clinicaldrug@infoway-inforoute.ca)
