

# 20221013 Release Notes

## Editorial Guideline Release Notes; Version 20221013

The following sections have received minor edits:

- Intended Use of the CCDD
- Appendix C, Hydration and Solvation

The following sections have received substantive revisions as well as minor edits:

- About the Draft Editorial Guidelines: Removed instances of "draft" throughout the section and modified the statement on frequency of Editorial Guideline updates
- Substance-Strength Set for the NTP: Added description of the use of scientific notation, augmented the discussion on exceptions to the use of presentation strength in the section Presentation Strength and Concentration Strength
- Unit of Presentation for the NTP: Augmented list of examples with unit of presentation explicitly stated
- NTP Formal Name Pattern: Enhanced table of single active ingredient substance NTPs
- Manufactured Product: Augmented discussion on the use of the DPD descriptor
- Status: Expanded on instances where an NTP or TM would be deprecated
